Abkari - C.L. - Toddy --Tapping licence - application  
form - amendments -proposed.

-----

Rule 4 (2) of the tree tapping rules prescribed by the Commissioner of Excise requires that applications for tree tapping licenses in the South Kanara District should be countersigned by the owner or person in possession of the trees intended to be marked in token of his consent, but the application form T.T.3 printed at pages 396 to 398 of the Excise Manual, Volume IV, does not make provision for obtaining such counter signature nor do the T.T.rules state where the counter-signatures as contemplated in Rule 4 (2) of the said rules should be obtained on the applications. It is reported that the tappers, who are generally the persons in possession of the trees for the time being are at present merely affixing their signatures or thumb impressions anywhere on the applications, as no space has been provided for in the form for the purpose and that question arises whether [such signatures anywhere on the applications can be legally taken as countersignatures of owners or persons in possession of the trees] when it becomes necessary to proceed against them for the recovery of the tree tax under the first part of section 19 of the Madras Abkari Act I of 1886. It is also reported that much time and labour is being wasted at present in the Taluk offices in searching for these signatures on the applications. In order to obviate the above difficulty and to facilitate work in the taluk offices, the Assistant Collector Coondapoor has suggested that the present T.T.3 application

form in respect of this District may be amended by adding the following two sub columns under column 2 of the form. /p

"Column 2 (c) - In the case of private ownership the name of the owner or person in possession of the trees,

Column 2 (d) - Signature or thumb impression of the owner or person in possession of the trees in token of his consent

I agree with the Assistant Collector and recommend that the T.T.3 application form may be amended accordingly. (L) pp 396-398 to 396

The rule requiring Counter signature of tree owners in token of their consent to tap the trees, in T.T.3 applications is in force only in the South Kanara Dt. T.T.3 forms are printed as bi-lingual forms - in English and the language of the dt. to which the form is to be applied. Only English-Kanarese forms are <sup>required for</sup> ~~supplied to~~ S. Kanara Dt. and it is  $\therefore$  sufficient if the amendment proposed by the Collr. is made in the English-Kanarese form (S.R.B.4 No. 24). For orders whether the amendment proposed by the Collr. may be accepted. ~~and in order to avoid confusion, a note also added after the proposed item 2(d) that items 2(c) and 2(d) need be filled in only in the case of trees in South Kanara Dt.~~

Please put up a printed T.T.3 application form to see if there would be sufficient space for the proposed entries of items 2(c) & d. It may not always be the case that there will be one owner of all the trees applied for in an appln. Further see 19 MAR is a joint order. Copy the particulars rule 4(2) for S. Kanara Dt. above. Please put up 10 of any.

items below.

Section 19 of the Madras Abkari Act provides that Govt. may issue a notification that tree-tapping licences will be granted only on the production by the applicant of <sup>the</sup> written consent of the owner or person in possession of the trees applied for marking.

Extract at p 1 (S)  
(Original report - bound in an unwieldy volume - will be put up by 8 required).

In 1892, the Collr. S. Kanara proposed that, with a view to save the trouble to abkari officials by minimising cases of tree owner's refusal of permission at the time of marking after the tapping licence has been issued, applications for tapping licences should be countersigned by the owners of trees in token of their consent. This proposal was

Please see the remarks of the

I have no objection to altering the  
form when it has to be reprinted  
As say 9-16 can be printed on leaf;  
but I see 9-14 are on one page & 15 16  
are on another G.M. now.

But it would be easy to raise the  
heading of the form & go get in what is heard  
at the top of the page & at the bottom -  
if the rules the cases are different & consider  
the signature form is useful and I  
would avoid separate pieces of paper to ~~attach~~  
attach to the main application form //

Sub:- Forms - T.T-3. Application for Tree Tapping Licences - South Kanara Dt. - Provision of space for Counter signature of owner or person in possession of trees - Amendment ordered.

Read:- from the Coll. South Kanara D.D.  
73-428 dt. 1. 42

Rule 4(2) of the T.T. Rules lays down that applications for tree-tapping licences in South Kanara Dt. should be countersigned by the owner or person in possession of the trees intended to be marked in token of his consent. The Coll. <sup>of</sup> South Kanara, points out that at present no space has been provided <sup>in</sup> on the application forms for the purpose of Counter signature and states that the persons in possession of the trees are affixing their signatures or thumb impressions anywhere on the applications and that much time and labour is being wasted in Taluk offices in searching for these signatures on the applications. To obviate the difficulty, the Coll. has proposed that the T.T-3 intended for use in application ~~in respect of~~ the dt. may be amended by adding the two following sub. Clauses under the existing Col. 2(4)

the present form—

2(c) In the case of private ownership  
the name of the owner or person in  
possession of the trees.

2(d) Signature or thumb impression  
the owner or person in possession  
the trees in token of his consent.

The Board accepts the Coll's  
proposal and directs that the  
amendments proposed by him be made  
in the T.T-3 application form  
(S.R.B(4) - 24 English - Kannarese)  
relating to the district. The two new  
items proposed may be inserted below  
the existing item 2(b) after inserting in the  
space obtained by raising the heading  
of the existing form  
and items 1 to 2(b) to the top of the 1st  
page of the form. The Supdt. Govt.  
Press is requested to carry out the  
amendment when the form is next  
re-printed.

DESPATCHED

19 MAR 1942

Extract of para 24 of the report of the Collector, South Kanara No. 1503 dated 20-4-1892 on the management of abkari revenue in the South Kanara Dt. for the year 1892-93.

24. The advisability of obtaining the tree-owners' signature to applications before the issue of tree-tax licences to applicants--

It not infrequently happens at present that after a licence has been issued to an applicant and his TT6 (now TT3) application forwarded to the Sub-Inspector for the purpose of his marking the trees, the tree-owner refuses to allow them to be marked when the Sub-Inspector proceeds to the spot to do so, either because the applicant has overhastily taken the owner's consent for granted or the owner has, on reconsideration, changed his mind about letting the tapper have the trees. Whatever the cause, the result is the same--unnecessary labour to some officials of the Abkari Department and temporary loss of occupation to the tapper. To obviate ~~the~~ such unpleasant ~~contretemps~~ Mangalore Circle Inspector has proposed that no T T 6 applications should be accepted unless countersigned by the owner in token of his consent to the trees being marked, when the trees are not the property of the applicant or held by him under a written lease. I am by no means sure though that tree-owners will not occasionally withdraw their consent to marking even after having countersigned the applications, but the countersignature of the tree-owner will be of some advantage, no doubt, as it will render refusal of permission to mark by him subsequently, rarer and so be calculated to some extent to save the Abkari officials some fruitless journeys, whilst it would benefit the tapper seeing that such countersignature would always be good evidence of the tree-owner having at one time contracted to let him have the trees marked. I accordingly support the proposal.

Extracts of paras 4 and 5 of Board's report to Govt. No. 294 d/2-6-1892 regarding proposals for the management of the Abkari Revenue in the South Kanara Dt. for the year 1892-93.

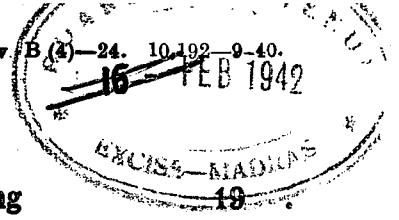

4. The improvements proposed by the Collector for the next year are--

x                    x                    x                    x                    x                    x

(i) to obtain the tree-owner's signature to applications for tree tapping licences as a condition of issue of such licences--para 24.

x                    x                    x                    x                    x                    x

5. The arguments put forth by the Collector for proposals (a), (b), (g), (i), (j), (k), and (l) are so strong that the Board has no hesitation in accepting them in their entirety and recommending their adoption.....
